Election/Restrictions

1. Applicant's election with traverse of Species i in the reply filed on 3 December 2007 is acknowledged. First the election of species is **nonresponsive** because of the statement that claims 1-16 read on the elected Species. This is incorrect since there are other non-elected Species ii, iv and v and claims 17, 18, 21-26 and 29-32 are not readable on the elected Species. Second to the traversal on the ground(s) that the search and examination of the entire application could be made without serious burden and the election of Species requirement is improper because it identifies specific claims as species, this is not found persuasive. It's because there is an examination and search burden for these patentably distinct species due to their mutually exclusive characteristics as alleged by the examiner, and because the election is proper as the claims limited to Species (two or more Species are claimed). See MPEP 806.04(f) for the latter.

2. The reply filed on 3 December 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the incorrect statement that a all claims readable thereon on the elected Species i. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply
